

CARBIDE TIPPED

MASONRY (PERCUSSION HAMMER) CORE DRILLS

ICS WIS

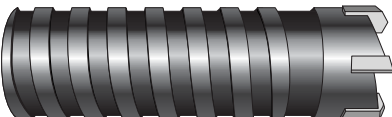

HEAVY DUTY

MULTI-TOOTH

Special Carbide Tipped Percussion Core Bits are designed to drill large diameter holes with most rotary hammer drills. Carbide Tips can withstand continuous hammering action and give maximum drilling life.

PERCUSSION CORE PILOT DRILL

Use a pilot drill for a more accurate starting position and to keep the hammer core drill from walking. The pilot drill is used only to start the initial starting groove and is then removed before drilling is continued.

ITEM NO.	SIZE AND DESCRIPTION	PRICE
MD-PCPD	3/8 x 5 A-Taper Shank	\$13.14

MASONRY DRILL EJECTOR KEY

Use Ejector Key to push Pilot Drill out of Tapered Core Body.

ITEM NO.	PRICE
MD-EK	\$6.62
