

CARBIDE TIPPED MASONRY DRILLS

ICS USA

GENERAL PURPOSE

ROTARY DRILL POINT

BLACK FINISH

FAST
SPIRAL

ZINC PLATED

Carbide Tipped Fast Spiral Masonry Drill Bits are designed for rotary drilling into brick, cinder block, tile, plaster, and other brittle materials. Brittle materials will require slower speeds and light to moderate pressure as material is being ground, not broken. The fast spiral flute design creates less heat buildup when drilling. Has a special carbide tip with 130° point and positive angles for fast penetration. They can be used in any 3-jaw chuck rotary style drill.
