

# CARBIDE TIPPED MASONRY (SPLINE SHANK) HAMMER DRILLS

**ICS USA**

**HEAVY DUTY**

**CROSS HEAD POINT**

**SPLINE SHANK**

**PARABOLIC FLUTE**

**MULTI CUTTER DESIGN**

Carbide Tipped Spline Shank Drive Masonry Hammer Drills with 4 cross cutting edges are designed for use with spline drive rotary hammers. The 4 cross cutting edges pulverize the material to be drilled better and quicker than single edge hammer bits. Spline drive hammer bits have 12 splines cut into the 3/4" diameter shank to ensure a positive fit between the bit and the bit holder on a spline drive rotary hammer which makes possible the most power transmission to the cutting edge for high speed drilling of large diameter holes in concrete, masonry and stone.
