HINGE SIZES**

Forstner bits are designed for intricate woodworking. They are used to drill flat bottom or through holes. Can bore any arc of a circle. Bit is guided by circular rim instead of center. Will cut satin smooth without deflection by grain or knots. Forstner bits are available machine ground to size from High Carbon Steel stock. Sizes 2-1/4 and over have multi-spur cutting edges. Forstner Bits are also known as Forstner Flange Bits or Webfoot Augers.
