1/2" Shank High Speed Steel Brad Point Silver & Deming Drills with are designed to drill smooth, accurate holes in wood with minimum tear-out. Center spur point holds drill on target and prevents walking when two cutting spurs make contact with surface so even overlapping holes can be drilled. Drills are made of high speed steel and will stay sharp much longer than high carbon tool steels. Brad Point Drills are also known as Dowelling Bits or Spur Drill Bits.

Fractional Sizes (Reduced Shank) 17/32 to 1-1/2" Dia.
