CARBIDE TIPPED IMPACT WRENCH AUGER BITS

ICS **USA**

HEAVY DUTY

MEDIUM SCREW POINT

**QUICK RELEASE
HEX SHANK**

**SELF-FEEDING
POINT**

Carbide Tipped Impact Wrench Auger Bits are designed to bore holes into the hardest wood and creosoted poles used by utilities. They will outlast and outperform tool steel auger bits. Two sizes of shanks fit all impact wrenches with standard 7/16" or 5/8" hex adapters. Hex shank can also be used in 1/2" electric drill. Single flute design with double cutters, two outlining spurs, side lip, and a self-feeding medium fast pitch screw point.
