SPECIAL PURPOSE

CHISEL CUT

FOUR-IN-HAND (SHOE) RASPS (Half-File)

Four-In-Hand Rasps are designed for filing both flat and curved surfaces in soft metals, wood, plastics and leather. They are an all-purpose file used by metal and wood workers, hobbyists, shoe repairmen and leather craftsmen. They have a rasp cut and a double cut file on both the flat and curved side. This rasp is also referred to as a Shoe or Hobby Rasp.

LENGTH x SIZE	CUT	ITEM NO.		PRICE EACH	STD. PKG.	WEIGHT PER DOZ. (lbs.)
		GRAY FINISH				
8 x 13/16 x 9/32	Combination File & Rasp	FR-FIH-08C		\$7.62	6	4.0
9 x 7/8 x 9/32		FR-FIH-09C		8.96	6	4.5
10 x 1-1/16 x 11/32		FR-FIH-10C		9.86	6	7.5

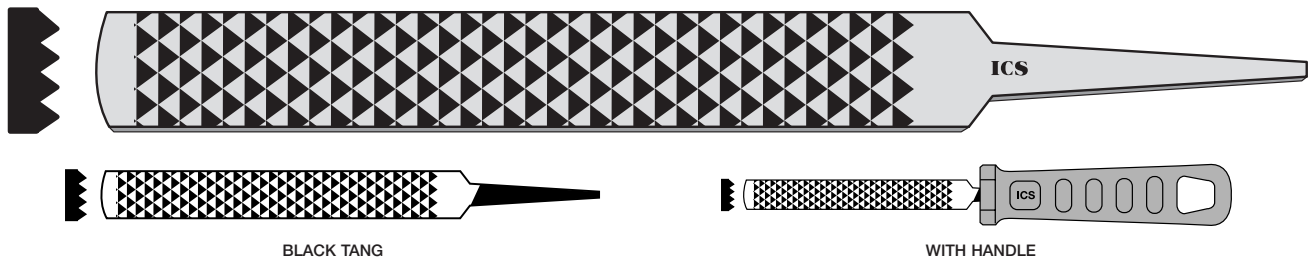

HORSE RASPS (Half-File)

Horse Rasps were designed for filing and shaping horses' hooves prior to shoeing. They are now also used for filing fiberglass and other abrasive materials. They have a rasp cut on one side and double cut coarse file teeth on the other side with single cut edges.

LENGTH x SIZE	CUT	ITEM NO.		PRICE EACH	STD. PKG.	WEIGHT PER DOZ. (lbs.)
		GRAY FINISH				
14 x 1-46/64 x 9/32	Combination Double Cut File/Rasp	FR-H-14C		CALL	6	16.5

FARRIER RASPS (With Tang)

Farrier Rasps were designed for filing and shaping horses' hooves prior to shoeing. They are now also used for filing fiberglass and other abrasive materials. They have a rasp cut on one side and double cut coarse file teeth on the other side with single cut edges.

LENGTH x SIZE	CUT	ITEM NO.		PRICE EACH	STD. PKG.	WEIGHT PER DOZ. (lbs.)
