## CROSSCUTTING RIPPING/MITERING BLADES

ROC-EDGE

THIN KERF

ATB GRIND

The Intimidator™ Blade Series is a Thin Kerf Carbide Tipped Circular Saw Blade that is designed to cut very fast and clean, as it is cutting less material. They have an alternate top bevel tooth grind for the cleanest cutting. All thin kerf blades have special engineered body slots to dissipate heat and a unique shoulder design for improved cutting performance. New anti-friction coating reduces friction and heat build-up.
